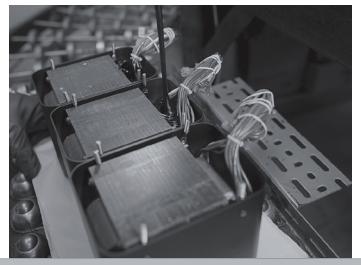
C52 stereo preamplifier

- The most advanced, single chassis solid state preamplifier we've ever made with an abundance of inputs to connect virtually any of your analog components and digital music sources.
- Supports many of the latest high resolution file formats including DSD files.
- Offers a secure, custom DSD connection for playback of SACDs when paired with the McIntosh MCT450 SACD/CD Transport.
- An 8 band analog equalizer lets you to fine tune your various music sources just the way you like.
- Headphone Crossfeed Director (HXD®) brings lifelike depth and spatiality to your music for your personal listening enjoyment.
- Home Theater Pass Through allows for seamless integration into your existing multi-channel home theater system.
- Classic styling permits the C52 to blend with new or old McIntosh systems and with any room decor.



Feature Packed Stereo Preamplifier

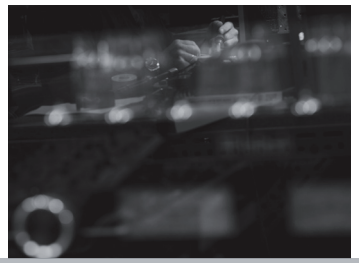
For the Consumer's Protection:
In order to ensure the highest level of customer satisfaction, "new" McIntosh products may only be purchased over-the-counter or delivered and installed by an Authorized McIntosh Dealer. McIntosh products that are purchased over the Internet, by phone or mail order are presumed to be "used" and do not qualify for any McIntosh Warranty. McIntosh does not warrant, in any way, products that are purchased from anyone who is not an Authorized Dealer or products that have had their serial number altered or defaced.



Companion Products
The MC601 Amplifier, MCT450 SACD/CD Transport, MT5 Turntable, MR88 AM/FM/HD Tuner, MB100 Media Bridge, MEN220 Room Correction System, MPC1500 Power Controller and XR200 Loudspeakers are logical companions for the C52 Stereo Preamplifier. Your Authorized Dealer can provide additional information on other McIntosh product combinations.
