

MCT500 sacd / cd transport

- Be transported into your music with the MCT500 SACD/CD Transport.
- Can be paired with any product that has standard digital inputs and a digital-to-analog convertor (DAC) including select McIntosh home theater processors, integrated amplifiers and preamplifiers.
- Proprietary MCT output connects to select McIntosh products with an MCT input to playback the high definition audio found on SACDs.
- All common disc types can be played including SACD, CD, CD-R/RW and DVD-R.
- In addition to store bought CDs and SACDs, popular file formats can be played from user generated CD or DVD Data Discs and USB flash drives.
- Disc handling is smooth and quiet thanks to an advanced disc transport with a precision die-cast aluminum tray.

Be Transported Into Your Music

For the Consumer's Protection:

In order to ensure the highest level of customer satisfaction, new McIntosh products may only be purchased from an Authorized McIntosh Dealer; and, with certain limited exceptions may only be purchased over-the-counter or delivered and installed by the Authorized McIntosh Dealer. McIntosh does not warrant, in any way, products that are purchased from anyone who is not an Authorized McIntosh Dealer, or that have had their serial numbers altered or defaced.

Companion Products

The MA8900 Integrated Amplifier, MT5 Precision Turntable, MHP1000 Headphones and XR100 Loudspeakers are logical companions for the MCT500 SACD/CD Transport. Your Authorized Dealer can provide additional information on other McIntosh product combinations.
